

## **(Senior) Magento Web Developer - eCommerce**

**Position:** (Senior) Magento Web Developer  
**Industry:** E-Commerce (Lingerie, Mode, Erotiktoys)  
**Office:** Zurich, Berlin or Warsaw  
**Contact:** jobs@amorana.ch

### Intro

AMORANA.ch and LooksOfLove.ch are two of the fastest growing Swiss Online-Shops for Fashion, Lifestyle and Erotic Toys. We are a young, quickly growing team of currently 13 people who enjoy working together.

As Magento Web Developer, you are responsible for the further development and operation of our two web shops.

### Tasks

- You will build eCommerce solutions by adapting Magento's best practices while meeting business requirements
- You will design and develop new pages and continuously update and improve end-user experience with an eye on improving performance
- You will be responsible for testing, monitoring and documenting user needs while fixing technical problems
- Understanding short and long term business goals and recommending solutions
- Developing custom modules for integration into ERP, accounting, fulfillment and marketing systems

### Requirements

- Bachelor's degree in Information Technology, Computer Science or any related field
- 2+ years of job related experience (eCommerce is preferred)
- Advanced experience on the Magento Platform and related Technologies (Varnish Cache, ...)
- CSS, HTML5, PHP coding skills, as well as MySQL database administration skills
- Knowledge of SEO principles
- Excellent problem solving skills
- You have an entrepreneurial mindset and thrive in a fast moving startup environment
- You are open, communicative and enjoy working independently

### Nice To Have

- Magento Developer Certification, JQuery, XML, MVC Frameworks (e.g. Zend Framework or Symfony2)
